CONRAIL BULLETIN # 100204

General offices at:
851 Reed Road
Clarion Pa, 16214

Crew Call time is 18:00 hrs. (6:00pm – for the civilians)

It's on again, another OPs session for 2010 - Thursday night Feb 04, 2010 at 6:00pm!

Thanks:

Now that some of the stated coming Family problems are behind us (the past week was a little hectic) I hope to get back to the layout.

Not much got done last week as I was playing **Hartle's Bed & Breakfast (Lunch & Dinner Too)!**

Thanks to all of those that expressed their Sympathies – as they were greatly appreciated during these trying times!

Now back to your regularly scheduled report!

I want to thank those that did a JOB change-up last time. Everything worked very well and I even got to see & operate parts of my layout I haven't done yet!

As I have been considering for the past weeks – planning is moving ahead for **OPTUD 7 !** It is tentatively being planned for July 31, 2010 (that is the 5th Saturday of July) – (so you can't say - well I always have things planned for the 5th Saturday of **every month!**) – Continuing announcements will be sent out as things progress!

Trackwork:

I have fixed several problem spots on the layout that were noted and marked from last OPs. Schenley sw at the Bridge is working again. The turnout (electrical problem) has been worked on at Stahlman Tipple area – hopefully it will continue to work.

As far as moving the turnout at Hawthorn – I am still looking into what else I can do with that area.

On a non Trackwork related subject – due to last OPs mishap with a Caboose falling off the layout at Falls Creek Caboose Track – I have installed a short piece of Plexiglas to keep any car from falling off in case it gets bumped. The Car that did hit the floor had very little damage (probably due to the rug on the floor)!

Scenery:

Well Penn Dot finally paved the road in Summerville! It has been another one of those years when the Mud finally dried.

Thanks for your cooperation and understanding.

See you there on Thursday night!
